

Bow Saw with Tubular Steel Frame

This bow saw features a green tubular steel frame with a curved design for enhanced maneuverability. The blade is securely tensioned, and the handle has a black grip for user comfort and control.

Product Overview

Professional Bow Saw

This bow saw features a durable, curved tubular steel frame designed for enhanced maneuverability during cutting tasks. The blade is securely tensioned to provide efficient and consistent cutting action across various materials. Designed with user comfort in mind, the ergonomic handle includes a secure grip for better control, making it an ideal tool for cutting wood and branches.
