Product Overview

High-Performance Cutting Solution

This bowl-shaped circular saw blade is engineered for high-efficiency grass and brush maintenance. Featuring a specialized bowl-shaped design with cooling holes, it effectively reduces vibration and prevents overheating during extended operation. The tungsten carbide-tipped teeth ensure a clean, precise cut across various vegetation types, from simple weeds to dense shrubs.

Technical Specifications

Key Features

- Fast cutting performance
- Hardened durable construction
- Bowl-shaped design for reduced vibration
- Integrated cooling holes
- Reusable and long-lasting

Blade Type	Bowl-Shaped Circular Saw Blade
Suitable For	Grass, Weeds, Crops, Brush, Shrubs
Material Composition	Tungsten Carbide Tipped Steel

Compatibility

Compatible Power Tools

Grass Trimmer • Brush Cutter
