

# Braided USB-C Charging Cable

This USB-C charging cable features a braided exterior, providing enhanced strength and longevity. It supports both fast charging and data transfer for compatible devices.

## ADDITIONAL IMAGES

## Product Overview

### Professional Charging Solution

This braided USB-A to USB-C cable is engineered for maximum durability and reliable performance in demanding environments. Featuring military-grade fiber reinforcement and an anodized aluminum housing, the cable is built to withstand rigorous daily use and frequent bending. It includes a built-in 56kΩ resistor to ensure stable conductivity and fast charging capabilities across a wide range of compatible devices.

## Technical Specifications

### Durability Rating

**5000 bends**

Minimum Bend Lifespan

### Connector Configuration

USB-A, USB-C

### Insertion Durability

10000 cycles

## Features

### Construction Quality

- Nylon-braided fiber jacket
- Anodized aluminum housing
- Reinforced stress points
- Gold-plated contacts
- Tangle-free design

## Package Contents

### Included Lengths

3ft • 6ft • 10ft
