

Brass Angle Valve for Flow Control

This angle valve is designed for controlling water flow. It is approved by ISO9001 and CE.

Product Overview

Professional Flow Control Solution

This brass angle valve is engineered for reliable flow control in water systems, featuring a robust brass body with a polished chrome finish for enhanced corrosion resistance. Designed to meet international standards, it incorporates a durable brass core and a zinc-brass handle for smooth, precise operation. Its compact design and standardized threading ensure ease of installation and long-term performance in various plumbing applications.

Technical Specifications

Available Sizes

- 1/2" x 3/8"
- 1/2" x 1/2"

Thread Standard	ISO-228-1:2000
Maximum Pressure	10 bar
Minimum Temperature	-10 °C

Material & Construction

Suitable Medium

Water

Materials	Brass Body, Chrome Plated, Zinc Handle, Brass Core
