

Brass Angle Valve for Fluid Control

This angle valve is designed for controlling fluid flow. It is approved by ISO9001 and CE.

Overview

Professional Fluid Control Solution

This brass angle valve is engineered for reliable flow regulation in plumbing and industrial fluid control systems. Constructed with a durable, chrome-plated brass body and a robust brass core, it ensures long-term performance and resistance to corrosion. Designed for versatile installation, it supports standard ISO-228-1:2000 pipe threading and is suitable for water-based applications.

Technical Specifications

Maximum Pressure

10 bar

Max Pressure

Available Sizes

- 1/2" x 3/8"
- 1/2" x 1/2"

Thread Standard

ISO-228-1:2000

Operating Temperature

-10°C

Materials & Construction

Material Composition

Component	Material
Body	Brass (Chrome Plated)
Core	Brass
Handle	Zinc (Brass finish)

Suitable Media

Water
