

# Brass Angle Valve for Fluid Control

This angle valve is designed for fluid control in plumbing and industrial systems. It features durable brass construction for corrosion resistance and reliable performance.

## Overview

### Brass Angle Valve for Fluid Control

This durable brass angle valve is engineered for reliable fluid control in plumbing and industrial systems. Featuring a polished, chrome-plated brass body and a sturdy handle, it ensures long-lasting performance and corrosion resistance. The valve is designed to operate effectively under pressures up to 10 bar and is optimized for water media applications.

## Technical Specifications

### Maximum Pressure

**10 bar**

Max Pressure

### Operating Temperature

-10°C

### Thread Standard

ISO-228-1:2000

### Suitable Medium

Water

## Construction & Materials

### Material Composition

- Brass body (polished & chrome plated)
- Brass core
- Zinc-brass handle

### Available Sizes

1/2" x 3/8" • 1/2" x 1/2"
