

Brass Angle Valve for Plumbing

This angle valve is designed for plumbing applications. It allows for precise control of water flow and shut-off.

Product Overview

Professional Brass Angle Valve

This high-quality brass angle valve is designed for reliable water flow control in both residential and commercial plumbing systems. Featuring a durable brass body with a polished chrome finish, it ensures long-lasting performance and corrosion resistance. The design includes a brass core and a robust handle for precise operation, making it an ideal choice for connecting water supply lines to sinks, toilets, and faucets.
