

Brass Angle Valve for Plumbing

This angle valve is constructed from durable brass. It is approved and suitable for use in water, oil, and gas systems.

Product Overview

Professional Brass Angle Valve

This high-quality brass angle valve is engineered for reliable flow control in plumbing and industrial water systems. Featuring a durable brass body with a polished chrome-plated finish, it offers excellent corrosion resistance and longevity. The design includes a robust brass core and zinc-brass handle, ensuring smooth operation and a secure, leak-free seal even in tight installation spaces.

Technical Specifications

Maximum Pressure	10 bar
Minimum Temperature	-10 °C
Thread Standard	ISO-228-1:2000
Suitable Medium	Water

Configuration

Available Sizes

- 1/2" x 3/8"
- 1/2" x 1/2"

Construction

Material Composition

Component	Material
Valve Body	Brass (Chrome Plated)
Handle	Zinc (Brass)
Core	Brass
