

Brass Angle Valve with Full Bore

This is a brass ball angle valve with a full bore design. The valve has a size of 1/2 inch, a DN of 12, a length of 46.5 mm, and a height of 70 mm.

Product Overview

High-Performance Brass Angle Valve

This brass ball angle valve features a robust full bore design, ensuring optimal flow capacity and minimal pressure drop for your piping systems. Engineered for reliability and durability, it is an ideal solution for residential and commercial water control applications. Its compact dimensions and precise manufacturing make it easy to integrate into tight installation spaces while maintaining high operational standards.

Technical Specifications

Nominal Size	1/2 inch
DN Rating	12

Dimensions

Length	46.5 mm
Height	70 mm
