

# Brass Ball Valve for Fluid and Gas Control

High-pressure ball valve constructed from durable brass, designed for industrial applications requiring reliable flow control. It features a robust body, smooth bore for minimal pressure drop, and a secure handle for easy operation.

## Product Overview

### Industrial Brass Ball Valve

This high-pressure ball valve is constructed from durable brass, specifically engineered for industrial applications that demand reliable flow control. It features a robust body design with a smooth bore to ensure minimal pressure drop during operation. Equipped with a secure handle for easy, manual flow management, this valve is suitable for a wide variety of fluids and gases, providing a tight shutoff and an extended service life.

## Technical Specifications

### Pressure Rating

**600 PSI**  
WOG Rating

### Key Features

- High-pressure design
- Smooth bore for minimal pressure drop
- Robust body construction
- Secure manual handle operation
- Tight shutoff capability

Material	Brass
Compatible Media	Fluid, Gas
