

Brass Ball Valve for HVAC&R Systems

This brass ball valve is designed for HVAC&R applications. It features threaded connections for easy installation and reliable shut-off and flow control.

Product Overview

High-Performance HVAC&R Control

The JL-7547 Brass Ball Valve is engineered for reliable shut-off and flow control within HVAC&R systems. Featuring a durable brass body and a smooth-operating ball mechanism, it ensures long-term performance across various fluid and gas applications. Its threaded connections and clear visual handle indicator simplify both installation and operation for professional technicians.

Key Metrics

Key Specifications

25 DN
Nominal Diameter

Technical Details

Article Number	JL-7547
Body Material	Brass
Connection Type	Threaded

Sizing Options

Art No.	Size	
JL-7547	3/8	1/2
	3/4	1

Technical sizing chart for the JL-7547 series, ranging from 3/8 to 1 inch.

Size Reference Table

Article Number	Size Options
JL-7547	3/8, 1/2, 3/4, 1
Available Sizes (Inches)	3/8, 1/2, 3/4, 1

Application

Suitable Media

- Fluids
- Gases

System Compatibility

HVAC • Refrigeration

Features

Design Features

- Durable brass body construction
- Smooth-operating ball mechanism
- Blue handle for visual status indication
- Threaded connections for easy maintenance
