

Brass Ball Valve with Aluminum Butterfly Handle

This ball valve is constructed from brass and features a full bore. It is equipped with an aluminum butterfly handle for easy operation.

Product Overview

Professional Brass Ball Valve

This high-quality brass ball valve features a durable full bore design, ensuring optimal flow rates for various fluid control applications. Equipped with an ergonomic aluminum butterfly handle, it offers easy and precise operation in tight spaces. Its compact build and reliable construction make it an ideal choice for plumbing and industrial systems requiring consistent performance.

Technical Specifications

Valve Type	Brass ball valve F/F (Female/Female)
Bore Type	Full bore
Handle Material	Aluminum

Dimensions & Sizing

Size and Dimension Matrix

Size	DN	Length (mm)	Height (mm)	Qty/Ctn
1/4"	8	42	37	192
3/8"	10	44	37	192
1/2"	15	52	40	192

Logistics

Quantity per Carton	192 pcs
