

Brass Ball Valve with Compression Fitting

This brass ball valve is designed for HVAC&R systems to control the flow of fluids or gases. It features a blue lever handle, a threaded male inlet, and a compression fitting outlet for easy and secure connection to tubing.

Product Overview

Professional Grade Brass Ball Valve

This durable ball valve is engineered for reliable flow control in various plumbing and HVAC applications, including washing machine installations. Constructed from high-quality Hpb57-3 brass, it offers excellent corrosion resistance and longevity. The unit features a polished chrome-plated finish and is designed for secure connections via its integrated compression fitting.

Technical Specifications

Size	G1/2"
Material	Brass Hpb57-3
Finishing	Polished and Chrome Plated

Application

Primary Applications	Washing Machine Valve, HVAC&R Systems, Fluid Control, Gas Control
