

Brass Ball Valve with Compression Fittings

This brass ball valve is equipped with compression fittings, ensuring secure connections in HVAC and plumbing systems. It features a full bore for maximum flow and a quarter-turn handle for easy operation.

Product Overview

Professional Grade Brass Ball Valve

This 90-degree brass ball valve is engineered for reliable fluid control in HVAC and plumbing systems. Featuring a full-bore design, it ensures maximum flow capacity and minimal pressure drop. The integrated compression fittings allow for seamless installation with copper, brass, and plastic piping, providing a secure and leak-resistant connection.

Technical Specifications

Connection Type

Compression Fitting

Valve Type

90-degree Ball Valve

Bore Design

Full Bore

Operation

Quarter-turn handle

Compatibility

Compatible Pipe Materials

Copper, Brass, Plastic

Applications

Primary Applications

- HVAC Systems
- Plumbing Installations
- Fluid Flow Control
