

Brass Ball Valve with Green Handwheel

This brass ball valve is designed for on/off control of fluids in various industrial and plumbing applications. It features a durable brass body, providing resistance to corrosion and high temperatures.

Product Overview

Industrial Brass Ball Valve

This durable brass ball valve is engineered for reliable on/off flow control in diverse industrial and plumbing systems. Constructed with a robust brass body, it offers excellent resistance to corrosion and high temperatures, ensuring longevity in demanding environments. The unit features a distinct green handwheel for manual operation and threaded ends for secure, leak-proof integration into existing piping infrastructure.

Technical Specifications

Handwheel Color

Green

Body Material

Brass

Operation Type

Manual Handwheel

Connection Type

Threaded

Applications

Compatible Media

Water, Oil, Gas

Primary Function

On/Off Flow Control
