

## Brass Ball Valve with Green Lever

This ball valve is constructed from brass and features threaded connections for straightforward installation. It is equipped with a green lever handle for convenient fluid flow control in industrial settings.

### Product Overview

#### Industrial Brass Ball Valve

This high-quality brass ball valve is engineered for reliable fluid flow control in demanding industrial environments. Featuring a distinct green lever handle for easy operation and visibility, it provides a robust solution for various piping systems. The valve is UL listed, ensuring it meets rigorous safety and performance standards for professional applications.

### Technical Specifications

Material	Brass
Handle Type	Lever
Handle Color	Green
