

Brass Ball Valve with Lever Handle

This ball valve is designed for on/off control of fluids and gases. When open, the valve provides a full, unobstructed flow path to minimize pressure drop.

Product Overview

High-Performance Brass Ball Valve

This brass ball valve is engineered for reliable on/off control of various fluids and gases across plumbing, HVAC, and industrial applications. It features a robust brass body with a chrome-plated ball and PTFE seats to ensure a secure, leak-proof seal. Designed for efficiency, the valve provides a full, unobstructed flow path when open, which effectively minimizes pressure drop during operation.

Technical Specifications

| | |
|---------------|---------------|
| Body Material | Brass |
| Ball Finish | Chrome-plated |
| Seat Material | PTFE |

Operation & Installation

| | |
|-----------------|--------------|
| Actuation | Lever Handle |
| Connection Type | Threaded |
