## Product Overview

### High-Performance Brass Ball Valve

This durable brass ball valve is engineered for reliable flow control in demanding industrial and plumbing environments. Featuring a smooth, quarter-turn lever handle, it provides precise and ergonomic operation for water, gas, and oil applications. The robust construction, paired with high-quality seals, ensures long-lasting performance and leak-proof integrity.

## Technical Specifications

Working Pressure	1.6 Mpa
Operating Temperature	-20°C to 120°C
Compatible Media	Water, Gas, Oil
Connection Standard	ISO 228
Size Range	DN15 - DN50

## Materials & Construction

### Material Composition

Component	Material
Body	High Quality Brass
Stem / Ball	High Quality Brass
Seal	PTFE
