

Brass Ball Valve with Red Lever Handle

This brass ball valve is designed for controlling fluid flow in industrial applications. It features a threaded connection for secure installation and durable construction for long-lasting performance.

Overview

Professional Grade Brass Ball Valve

This durable brass ball valve is engineered for reliable flow control in demanding industrial environments. Featuring a robust red lever handle for quick and easy operation, it is designed to maintain seal integrity across various fluid applications. Its threaded connection ensures a secure and leak-proof installation, making it an essential component for water, oil, and gas management systems.

Technical Specifications

Handle Color

Red

Model Number

JM1105

Material

Brass

Handle Type

Lever Handle

Applications

Compatible Media

Water, Oil, Gas
