

Brass Ball Valve with Steel Lever Handle

This is a brass ball valve with a full bore PN25 and a steel lever handle. It has a size of 3/8", a length of 49.5, and a height of 43.

Product Overview

Professional Brass Ball Valve

This high-quality brass ball valve is designed for reliable fluid control in industrial and commercial plumbing applications. Featuring a full bore design for optimal flow capacity and a durable steel lever handle, it ensures smooth operation and long-lasting performance. Built to withstand pressure ratings up to PN25, this component is an essential choice for robust piping systems.
