

# Brass Ball Valve with Threaded Connections

This ball valve is constructed from durable brass. It features threaded connections on both ends for plumbing integration and fluid control.

## Product Overview

### Professional Fluid Control Solution

This brass ball valve is engineered for reliable fluid control in a wide range of plumbing and industrial applications. Featuring a robust brass construction and secure threaded connections, it offers durability and ease of integration into existing systems. The inclusion of a high-visibility green lever handle allows for quick and intuitive operation, ensuring efficient flow management.
