

# Brass Compression Fitting Elbow 1/4 inch Tube x 1/8-27 Male Pipe

This brass fitting elbow connects 1/4 inch tubes to 1/8-27 NPT male pipe threads. It features a compression fitting on one end and a male pipe thread on the other.

## ADDITIONAL IMAGES

## Product Overview

### High-Precision Brass Compression Elbow

This forged brass elbow fitting is engineered for reliable connections between 1/4" tubing and 1/8-27 male pipe threads. Manufactured using digital lathes for high precision, it is ideal for pneumatic, hydraulic, and instrumentation applications where a secure, leak-proof seal is required. The durable brass construction ensures excellent corrosion resistance and long-term performance in demanding industrial environments.

## Technical Specifications

### Material

Forged Brass

### Unit Weight

**21 g**

Net Weight

Product Code	SV-CF0103
Connection Type A	1/4 inch Tube Compression
Connection Type B	1/8-27 Male Pipe (NPT)
Thread Standards	7/16-24 UNS 2A, 7/16-24 UNS 2B, NPT 1/8-27

## Manufacturing & Quality

### Production Process

- Forged brass construction for superior strength
- Machined by high-precision Digital Lathe
- Threads and dimensions verified by standard gauge

### Customization Services

- Production based on customer drawings
- Sample-based manufacturing
- Free mold and tooling development

## Applications

### Recommended Use

Pneumatic Systems, Hydraulic Systems, Plumbing, Instrumentation
