

Brass Gas Ball Valve with Quarter-Turn Handle

This brass gas ball valve is designed for controlling gas flow in industrial and residential settings. It features a quarter-turn lever handle for easy operation and threaded connections for secure installation.

Product Overview

High-Performance Gas Control

This brass gas ball valve is engineered for reliable flow control in both industrial and residential gas systems. Featuring a durable brass body and a convenient quarter-turn lever handle, it ensures quick and secure operation. It is specifically designed to be compatible with natural gas, propane, and other non-corrosive gases, offering a dependable shut-off solution for your piping infrastructure.

Technical Specifications

Material	Brass
Operation Type	Quarter-turn lever handle
Compatible Media	Natural Gas, Propane, Non-corrosive gases
Connection	Threaded

Key Features

Key Benefits

- Durable brass construction
- Easy quarter-turn operation
- Reliable shut-off capability
- Secure threaded installation
