Product Overview

Precision Brass Gas Adapter

This precision-engineered brass gas adapter is designed for secure, reliable, and leak-free connections in demanding gas line applications. Featuring a robust hexagonal body for easy installation and wrenching, it offers exceptional durability and corrosion resistance. Its compact design and high-quality construction make it an ideal solution for plumbing, HVAC, and various industrial or commercial gas system setups.

Technical Specifications

Thread Configuration

- MPOL (0.880"-14NGO-LH-EXT)
- G3/8-LH

Product Code: SV-BGF003

Maximum Pressure: 1 MPa

Material & Construction

Design Features

Hexagonal Body • Precision Machined • Leak-Proof

Material Composition: Brass, Corrosion Resistant, Durable

Applications

Suitable Industries

- Plumbing
- HVAC Systems
- Industrial Gas Lines
- Commercial Gas Equipment
