

Brass Gate Valve with Red Handwheel

This gate valve is constructed from brass with a red handwheel. It is designed for controlling the flow of fluids in industrial and plumbing applications.

Product Overview

Industrial Brass Gate Valve

This durable brass gate valve is designed for reliable flow control in industrial and plumbing applications. Featuring a robust brass body and a manual red handwheel for easy operation, it ensures efficient shut-off capabilities. The threaded connection design allows for straightforward installation into existing piping systems, making it a versatile choice for various fluid management needs.

Technical Specifications

Body Material	Brass
Handwheel Material	Cast Iron
Connection Type	Threaded

Key Features

Operation	Manual
Recommended Applications	Industrial, Plumbing, Fluid Control
