

Brass Globe Valve - 0.375-2 inch

This brass globe valve is designed for regulating flow in various industrial applications. It features a durable brass body and a handwheel for precise flow control.

Product Overview

Brass Globe Valve

This brass globe valve is engineered for reliable flow regulation in diverse industrial environments. Designed to meet GB standards, it provides precise control over fluid systems, including water, oil, and gas applications. Its durable brass construction ensures longevity and consistent performance in demanding operational conditions.

Technical Specifications

Material

Brass

Key Features

- Durable brass body construction
- Manual handwheel for precise flow control
- Designed for industrial flow regulation

Size Range

0.375 - 2 inches

Standard

GB Standard

Compatible Media

Water, Oil, Gas
