

## Brass Hose Connector with Barbed End

This brass hose coupling is designed to connect a hose to a threaded fitting. It is ideal for plumbing, automotive, and industrial settings where a secure and leak-proof hose connection is required.

### Product Overview

#### Brass Hose Connector with Barbed End

This brass hose coupling is designed to connect a hose to a threaded fitting, featuring a male threaded end for connection to a female threaded port and a barbed end for secure hose attachment. Constructed from durable brass, it offers excellent corrosion resistance and reliable performance in various applications. It is an ideal solution for plumbing, automotive, and industrial settings where a secure and leak-proof hose connection is required.

### Technical Specifications

#### Available Sizes

- 1/16"
- 3/32"
- 1/8"
- 3/16"
- 1/4"
- 5/16"

<b>Product Code</b>	SV-BB107
