

Brass Lever Handle Ball Valve

This ball valve is designed for industrial and general purpose applications. Constructed from durable brass, the valve features a lever handle for easy on/off control and is equipped with threaded connections for secure installation.

Product Overview

High-Performance Brass Ball Valve

This high-quality ball valve is engineered for both industrial and general-purpose fluid control applications. Constructed from durable brass, it provides long-lasting performance and reliable flow regulation in demanding environments. The unit features an intuitive lever handle for rapid on/off control and is designed with threaded connections to ensure a secure, leak-proof installation.

Technical Specifications

Pressure Rating	PN16
Seal Material	PTFE
Body Material	Brass
Control Mechanism	Lever Handle

Key Features

Key Features	Leak-proof design, Easy operation, Industrial grade, Threaded connection
