Product Overview

Reliable Flow Control

This brass manual shutoff ball valve is engineered for dependable performance in diverse fluid systems. Featuring a durable brass body for corrosion resistance and a lever handle for quick, precise quarter-turn operation, it ensures efficient flow management. The design facilitates secure, leak-proof installation, making it a robust solution for professional heating and plumbing applications.

Technical Specifications

Dimensional Parameters

- B (Width)
- H (Height)
- G (Port Diameter)
- D (Thread Radius)
- R (Thread Radius)
- L (Overall Length)

Valve Type	Manual Quarter-Turn Ball Valve
Body Material	Brass
Operation	Manual Lever Handle
Connection	Threaded

Manufacturing Standards

Industry Experience

20 Years

Years of Expertise

Manufacturing Highlights	Green Manufacturing, Cost Efficient, Quality Guaranteed
