

Brazed Diamond Saw Blade

This brazed diamond saw blade is designed for precision cutting of hard materials. The blade features a durable steel core with a brazed diamond edge, providing excellent cutting performance and long life.

Product Overview

Professional Brazed Diamond Saw Blade

This brazed diamond cutting blade is engineered for high-precision cutting across a range of hard materials, including stone, tile, concrete, and glass. Featuring a durable steel core with a specialized brazed diamond edge, the blade ensures a robust bond between diamond particles and the core to prevent premature wear. Its segmented rim design facilitates efficient debris removal and cooling, significantly extending the tool's lifespan and maintaining cutting efficiency.

Technical Specifications

Design Features

- Brazed diamond edge for long life
- Segmented rim for debris removal
- Friction-reducing surface coating
- Standard arbor hole compatibility

Key Performance Metrics

1 High

Bond Strength

1 Optimized

Cooling Efficiency

Suitable Materials

Stone, Tile, Concrete, Glass
