

Bright Finish Steel Strapping

This brightly finished steel strap is designed for various industrial applications. It provides excellent strength and corrosion resistance, making it ideal for securing heavy loads in demanding environments.

Product Overview

Bright Finish Steel Strapping

This high-quality brightly finished steel strap is engineered for demanding industrial applications, providing exceptional strength and reliable load security. Designed for versatility, it is suitable for use across machinery, construction, and transportation sectors. The product is manufactured to precise standards to ensure consistent performance and longevity in challenging environments.

Standards & Quality

Performance Standard	GB716-83
Manufacturing Flexibility	Yes

Packaging Details

Protective Materials

- Water-proof wax paper (inner)
- Plastic film (medium)
- Sackcloth (outer)
- Compound paper (outer)

Coil & Bundle Specifications

Configuration	Inner Diameter (mm)	Weight per Coil (kg)
2 or 3 small coils/bundle	200, 300, 406, 508	50 ± 1
1 coil/bundle	406	50-60 ± 1

Weight per Pallet

1 metric ton
Total Weight

Pallet Types	Wooden Pallets, Iron Pallets
Bundles per Pallet	20 bundles
