

Brine System Ice Block Production Machine

This brine system ice block machine is designed for efficient and reliable ice production. It utilizes a brine solution to facilitate the freezing process, resulting in high-quality ice blocks.

Zhejiang Qiu Feng Refrigeration Equipment Manufacturing Co., Ltd

Product Overview

High-Efficiency Brine Ice Production

This brine system ice block machine is engineered for reliable, high-volume ice production. Utilizing advanced compressor technology and patented energy economizers, it ensures stable operation even in environments with unstable power supplies. Designed for durability and ease of maintenance, this system provides a consistent solution for professional ice block manufacturing.

Key Features

Advantages

Energy Economizer, Stable Operation, Easy Cleaning, Simple Operation, Power Protection

Performance Metrics

Ice Production Speed

2 hrs

Fast Cycle Time

3 hrs

Standard Cycle Time

Technical Details

Compressor Origin

- United States
- Italy
- Japan
