Product Overview

Marine-Grade Performance

This Bronze Marine Stop-Check Non-Return (SDNR) Valve is engineered specifically for demanding marine environments, offering superior corrosion resistance in seawater. Combining the functionality of both a stop valve and a check valve, it effectively prevents backflow while allowing for manual shut-off control. Built to JIS standards and rated for Class 150 pressure service, this valve is an essential component for ballast, cooling water, and fuel oil systems in shipbuilding and offshore applications.

Technical Specifications

Pressure Class

Class 150 • 10K

Valve Type

Stop-Check Non-Return (SDNR)

Material Composition

Component Materials

Component	Material Specification
Body	BC6
Bonnet	C3771BD or BE
Disc	C3771BD or BE
Stem	C3771BD or BE
Handwheel	FC200

Compliance & Standards

Industry Standards

JIS Marine Standard, Marine Grade

Applications

Suitable Systems

- Ballast water systems
- Cooling water lines
- Fuel oil systems
- Shipbuilding
- Offshore platforms
