Product Overview

Bronze Self-Closing Gate Valve Head

This self-closing gate valve head is specifically engineered for short sounding pipes in marine applications. Manufactured in accordance with JIS F 7400 standards, it features a robust bronze construction for the body, disc, and lever, ensuring durability in harsh maritime environments. The design includes a reliable steel spring mechanism to facilitate effective self-closing functionality.

Technical Specifications

Test Pressure (Body)

0.3 MPa
Test Pressure

Materials Bronze Body, Bronze Disc, Bronze Lever, Steel Spring

Standard JIS F 7400
