

Brown Aluminum Oxide Abrasive Cloth Roll

Abrasive cloth roll featuring brown aluminum oxide grains. It has a durable cloth backing for material removal and finishing applications on wood, metal, and other surfaces.

Product Overview

Professional Abrasive Cloth Solution

This premium brown aluminum oxide abrasive cloth roll is engineered for consistent material removal and high-quality finishing applications. The durable cloth backing provides excellent flexibility and longevity, making it suitable for demanding tasks on both wood and metal surfaces. Featuring a uniform abrasive grain distribution, it ensures a smooth, professional finish for every project.

Technical Specifications

Grit Size

40

Abrasive Material

Brown Aluminum Oxide

Backing Type

Durable Cloth

Model Identifier

YA391C

Usage Information

Primary Applications

- Sanding
- Surface Finishing
- Material Removal

Compatible Surfaces

Wood, Metal
