

Brushed Nickel Ceiling Fan with Integrated Light

This ceiling fan features five aerodynamically designed blades for optimal airflow. The brushed nickel finish adds a touch of elegance and it includes an integrated frosted glass light fixture for ambient lighting.

Product Overview

Modern Comfort and Design

This modern ceiling fan combines elegant aesthetics with functional design, featuring a sophisticated brushed nickel finish that complements any professional or residential interior. Equipped with five aerodynamically engineered blades, it provides optimal airflow while maintaining quiet operation. The integrated frosted glass light fixture offers ambient illumination, making it a versatile solution for climate control and lighting needs.

Technical Specifications

Diameter	52 inches
Downrod Length	6 inches
Blade Count	5

Features

Finish	Brushed Nickel
Lighting	Integrated frosted glass fixture
Key Features	Quiet Operation, Energy-Efficient Motor, Aerodynamic Design, Easy Installation

Performance Metrics

Speed Control
Multiple Speed Settings
