

Brushless Reciprocating Saw for Demolition and Remodeling

This brushless reciprocating saw is engineered for cutting through diverse materials. The saw features a brushless motor that provides enhanced performance, longer runtime, and increased durability.

Overview

High-Performance Demolition Solution

This 18V brushless reciprocating saw is engineered for demanding demolition and remodeling tasks, offering superior efficiency and durability. It features a tool-free quick-release system for rapid blade changes and an integrated battery indicator to monitor power levels during operation. With its ergonomic design and versatile battery compatibility, it provides professional-grade cutting performance across wood and metal materials.

Performance

Performance Metrics

2500 RPM

No-Load Speed

28 mm

Blade Stroke

180 mm

Max Wood Cut

Technical Specifications

Motor Type

Brushless

Operating Voltage

18 V

Cutting Capacity

Maximum Cutting Capacity

Material	Capacity
Wood	180 mm
Metal	8 mm

Battery & Charging

Available Battery Capacities

- 1.5Ah
- 2.0Ah
- 2.5Ah
- 3.0Ah
- 4.0Ah
- 5.0Ah

Charging Time

1 hour fast charger

Configuration

Single Battery, Double Battery

Features

Quick Release System

Yes

Battery Level Indicator

Yes

Packaging

Packaging Options

Color Box, Nylon Bag, BMC Packing
