

BS-115 Machine Tool for Precision Cutting

The BS-115 is a robust machine tool designed for precision cutting. Its rigid frame ensures stability during operation, while the adjustable blade guides enhance cutting accuracy.

Overview

Precision Cutting for Professional Workshops

The BS-115 is a robust machine tool engineered for high-precision cutting tasks. Featuring a rigid frame for maximum stability and adjustable blade guides, it ensures consistent accuracy across various materials. Its compact, portable design makes it an ideal solution for both dedicated workshops and on-site applications where reliable performance is required.

Cutting Capacity

Key Cutting Capacities

115 mm
Circular @ 90°

100 mm
Circular @ 45°

Rectangular Cutting Capacity

Angle	Capacity (mm)	Capacity (inch)
90°	100 x 150 mm	4" x 6"
45°	60 x 100 mm	2.4" x 4"

Technical Specifications

Motor Power	375 W
Motor Horsepower	1/2 HP
Blade Dimensions	12.7 x 0.64 x 1683 mm
Drive Type	V-BELT

Performance

Blade Speeds

Frequency	Speeds (MPM)
50Hz	80, 120, 220 MPM
60Hz	24, 37, 67 MPM

Logistics

Packing Dimensions	96 x 45 x 46 cm
Net Weight	61 kg
Gross Weight	64 kg

Features

Standard Features

- Rigid frame for stability
- Adjustable blade guides
- Integrated coolant system
- User-friendly control panel
- Portable design
