

Bulk Cargo Transport via Sea Freight

Sea freight services are available for transporting bulk cargo. These services specialize in the logistics of large-volume shipments.

Service Overview

Bulk Cargo Sea Freight Logistics

This service provides reliable international sea freight transport for large-scale bulk cargo. With a proven capacity to manage significant tonnage between Denmark and Greece, we ensure professional handling of maritime logistics. Our operations utilize large-capacity bulk carrier vessels designed for safe and efficient long-distance transport.

Capacity & Logistics

Denmark Export Capacity	51000 tons
Greece Export Capacity	52300 tons
