

Bulldozer Ripper Tooth for Caterpillar D9 D10

This ripper tooth is designed for Caterpillar D9 and D10 bulldozers. It is manufactured from hardened steel for wear resistance.

Product Overview

High-Performance Ripper Tooth

This durable ripper tooth is engineered for heavy-duty ground engaging applications, specifically compatible with D9 and D10 class bulldozers. Manufactured using advanced lost wax casting techniques and high-quality alloy steel, it offers exceptional wear resistance and structural integrity. Designed for demanding construction and mining environments, this component ensures efficient material fracturing and long-term reliability.

Technical Specifications

Part Number	4T5503
Material	Alloy Steel
Weight	36 kg
Production Process	Lost Wax Casting

Performance Metrics

Hardness

50 HRC

Average Hardness

Impact Resistance $\geq 18J$

Logistics & Customization

Available Colors

Yellow • Black • Green • Gray

Typical Lead Time 15-40 days

Certifications ISO9001:2008
