

C Size Zinc Carbon Battery

This C size battery is an extra heavy-duty zinc-carbon dry cell, designed for reliable power in various applications. With a voltage of 1.5V, it's suitable for devices requiring a C-size battery.

Overview

Engineered for reliable power with advanced leak-proof construction.

Reliable Power for Everyday Needs

This C-size zinc carbon battery is engineered for consistent, reliable performance in low-to-medium drain household and electronic devices. Featuring advanced leak-proof construction and specialized power-lock technology, it offers an extended shelf life and dependable energy output. Designed with environmental responsibility in mind, the battery is completely free of mercury and cadmium, making it a safe choice for toys, flashlights, and portable electronics.

Key Features

Extra Heavy Duty, Leak-Proof Design, Mercury-Free, Cadmium-Free, Power Lock Technology

Technical Specifications

Durata Size C
Durata size C (1.5V) batteries are built with PowerLock Technology for a long lasting performance. They have a Super Shield 19 and are perfectly compatible with most household and business devices. They are commonly used to power Handlights, Toys and Musical Instruments.

Specification	Non-Mercury
Type	C R14P Durata
Case	High-Molecular Polyethylene
Electrolyte	ZnO
Electrode	Water-Free Zinc-Dioxide-Zinc Oxide
Feature	PowerLock Technology
Manufacture	China
Material	Zinc
Discharge	Standard Discharge
Operating Temperature	-20°C to 55°C
Weight	1.5g (0.053oz)
Dimensions	26.5mm x 14.5mm x 44.5mm
Part Number	1.5V C R14P Durata

Detailed performance metrics and technical specifications.

Brand Vision
Durata strongly supports the development of batteries, which ranks No. 1 among all Chinese suppliers for the battery & power source.

With our continuous investment in technology, Durata is the biggest and most professional manufacturer in the world. We have a complete production line, from the production of raw materials to the production of finished products. We have a complete production system, from the production of raw materials to the production of finished products. We have a complete production system, from the production of raw materials to the production of finished products.

Choose Durata, choose the best. You will get a better battery with more energy and longer life. Durata is the best choice for your battery needs.

Environmentally conscious design with a 3-year shelf life.

Construction

- Metal Top
- Metal Bottom
- PVC Jacket

Battery Type	C (R14P / SUM-2)
Nominal Voltage	1.5 V
Shelf Life	3 years

Performance Data

Discharge Performance

Application	Condition	Duration
General Service	3.9°C, 1h/d, EV 0.8V	300 minutes
Fast Test	3.9°C, 2h/d, EV 0.9V	200 minutes

Logistics & Compliance

FAQ

- Can I become the exclusive distributor of your brand?
A: Yes. Our company has MOQ requirement for our exclusive distributors in each specific market. We could have detailed discussion if you are interested in.
- What is your mode of transportation for delivering the goods?
A: Our goods are transported by sea.
- Do you provide ODM?
A: No. We only offer ODM service.
- What are the payment terms you accept?
A: We accept Irrevocable Letter of Credit at sight, and Telegraphic Transfer (T/T) with 50% paid in advance, balance paid before shipment.
- What are the trade terms?
A: We conduct sales on a FOB basis.
- What is your terms of packing?
A: Packaged in plastic stretch packs, stretch cards, blister cards, boxes, and cartons.
- How about your battery delivery time?
A: About 15 days after receiving your advance payment. Specific delivery time depends on the items and the quantity of your order.
- Are your batteries safe?
A: Our batteries are environmentally friendly and contain no mercury. They are of high-grade design and good construction.
