

# C63 Miniature Circuit Breaker with Status Window

Miniature circuit breaker provides overload and short-circuit protection for electrical circuits. It features a clear window for easy viewing of the breaker's status and complies with IEC60898 standards.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Miniature Circuit Breaker

The KNB6-63 is a high-breaking capacity miniature circuit breaker designed for reliable overload and short-circuit protection in electrical lines. Featuring a clear status window for easy visual monitoring, this device is engineered for convenience with standard DIN rail installation. It is suitable for AC 50/60Hz circuits, offering robust performance for residential, commercial, and industrial electrical systems.

## Technical Specifications

### Tripping Characteristic

C63

Rated Working Voltage	415 V
Rated Current	63 A
Breaking Capacity	10000 A
Operating Frequency	50/60 Hz

## Compliance & Standards

Compliance Standards	IEC/EN60898, GB10963, CE
----------------------	--------------------------

## Installation & Features

### Key Features

- Status indicator window
- Overload protection
- Short-circuit protection
- Infrequent on-and-off operation

Mounting	Standard DIN rail
