

# Cable Cutting Hand Tool

This professional cable cutter features high-frequency quenching and polishing for enhanced durability and smooth cutting. It is designed with sharp blades and a curved cutting edge to prevent cable slippage during operation.

## ADDITIONAL IMAGES

## Product Overview

### Professional Grade Cable Cutting Tool

This high-performance cable cutter is engineered for precision and durability, utilizing carbon steel with whole-body heat treatment. The cutting edges undergo high-frequency heat treatment to achieve a hardness of HRC50-52, ensuring efficient shearing and long-term wear resistance. Designed with user comfort in mind, the tool features ergonomic PVC resin grips and a surface that has been fine-ground for superior rust resistance.

## Technical Specifications

### Surface Finish

Fine Grinding • Rust Resistant

Material	Carbon Steel
Blade Hardness	HRC50-52
Cutting Capacity	4/0 Aluminum, 2/0 Soft Copper, 100-pair 24 AWG Communications Cable
Handle Material	PVC Resin

## Size Variants

### Available Sizes & Cutting Ranges

Size	Max Cutting Range	Tool Length
6 inch	6 mm	165 mm
8 inch	7 mm	210 mm
10 inch	9 mm	240 mm
