

Cable Manufacturing Machinery

Machinery designed for conductor stranding, XLPE/armored cable production, and multicore cabling. It is capable of handling up to 630mm payoff drums and includes steel wire armoring machines.

Overview

High-Performance Cable Production Solutions

This advanced cable manufacturing machinery is engineered for high-efficiency production, supporting critical processes including conductor stranding, XLPE insulation, and steel wire armoring. Designed for reliability and precision, the system handles multicore cabling with ease and is compatible with payoff drums up to 630mm. It provides a robust solution for manufacturers looking to streamline their cable fabrication lines.

Technical Capabilities

Included Machine Modules

- Conductor Stranding Machine
- Steel Wire Armoring Machine
- Multicore Cabler

Max Payoff Drum Size	630 mm
Supported Manufacturing Processes	Conductor Stranding, XLPE Insulation, Steel Wire Armoring, Multicore Cabling
