

# Cable Tie Mounting Holder

These cable tie holders securely mount cable ties to surfaces. They feature either a screw-mount or square head design for easy installation and durable performance.

## ADDITIONAL IMAGES

## Overview

### Efficient Cable Management Solution

These cable tie mounting holders provide a reliable and time-saving solution for securing wiring in environments where hole-drilling is not permitted. Featuring a strong adhesive backing, they allow for quick installation on various surfaces by simply removing the cover and sticking the piece in place. Constructed from durable PE or PA materials, these holders are ideal for professional electrical, automotive, and general cable management applications.

## Key Features

### Key Benefits

- No drilling required for installation
- Easy and time-saving application
- Self-adhesive backing for quick mounting
- Durable construction for long-term use

## Technical Specifications

### Available Colors

White • Black

### Material

PE, PA
