

Cable Tie Tensioning and Cutting Hand Tool

This hand tool is designed for tensioning and automatically cutting cable ties. It is suitable for cable ties ranging from 50mm to 350mm in length and 4.8mm in width.

Product Overview

Professional Cable Management Solution

This hand-operated cable tie tensioning and cutting tool is designed for efficient wire and cable bundling in industrial environments. It features an ergonomic handle to minimize operator fatigue during extended use and is built from durable materials to withstand demanding conditions. The tool ensures a clean, flush cut for a professional finish, making it ideal for wire harnessing and electrical assembly tasks.

Technical Specifications

Weight	0.3 kg
Tool Length	165 mm
Construction Material	Metal

Compatibility

Compatible Cable Tie Length	50-350mm
Max Cable Tie Width	4.8 mm

Key Features

Capabilities	Fast Binding, Automatic Cut-and-Bind, Ergonomic Design, Flush Cutting
