

Cage Bed Cargo Truck

This medium-duty truck is designed for transporting cargo. It features a robust cage bed, ensuring secure and reliable transport of goods.

Overview

Robust Cargo Solutions

The Cage Bed Cargo Truck is a medium-duty transport vehicle engineered for secure and versatile material handling. Featuring a durable cage-style cargo enclosure, it is designed to transport goods safely while providing high visibility and ventilation. With its heavy-duty dual rear axle configuration, this truck offers the stability and capacity required for demanding commercial logistics operations.
