

Cam Lock with Rotating Cam

This cam lock features a cylindrical housing and a rotating cam. It is designed for securing drawers, cabinets and other enclosures.

Product Overview

Secure Locking Solution

This cam lock features a robust cylindrical housing with a reliable rotating cam mechanism, designed for high-security applications in office and industrial environments. Constructed from durable metal with a professional silver finish, it ensures long-lasting performance for various enclosures. The included mounting nut facilitates quick and secure installation, making it an ideal choice for securing drawers, cabinets, and storage units.
