Product Overview

Advanced Parking Assistance Integration

This camera interface module is specifically engineered to upgrade the multimedia capabilities of Mercedes-Benz S-Class vehicles manufactured between 2015 and 2017. It enables the seamless integration of aftermarket rear and front-view cameras, as well as 360-degree panoramic systems, directly into the OEM display. Designed for professional installation, the module supports advanced features like Intelligent Parking Assist System (IPAS) and Parking Distance Control (PDC) auto-triggering.

Compatibility

Compatible Vehicles

Mercedes-Benz S-Class 2015, Mercedes-Benz S-Class 2016, Mercedes-Benz S-Class 2017
