

Canister and Upright Vacuum Cleaner

This vacuum cleaner includes both a canister model and an upright model. The canister model features a silver, rounded design, while the upright model is red and black.

Product Overview

Versatile Cleaning Solution

The LD-605 series offers a comprehensive approach to home maintenance by providing both canister and upright vacuum configurations. This dual-model design ensures that users have the right tool for different cleaning environments and surface types. Engineered for efficiency, these units combine functional design with reliable performance for standard household cleaning tasks.
